

Teamwork

WORKING TOGETHER FOR COMMON GOALS

Almost all work is done in teams.

Corporate success will be determined by the ability of a team to map out goals, build action plans and execute effectively. This means that we must understand the personalities of each team member and the politics that result.

Poor teamwork can result in:

- Staff turn-over
- Employee illness and work shortages
- Sloppy outputs
- Corporate malaise
- Financial burden
- Failure to meet timelines
- Failure to achieve results
